

I Respecfully urge the FCC to REJECT the NAB'S petition 04-160The reason is that local radio does not give enough coverage on traffic as it is very important to me as a truck driver.

Do yourself a favour and turn on a radio and listen to it on any frequency and try and find out what time it is..IT IS IMPOSSIBLE.

At least with XM RADIO you can find the time and real time update's for traffic...which is unheard of with regular radio nulesss it has some news headlines then you will get real time update.

Regards

Terry Lawrence

PS. Dont even have any tapes and cd's in truck any more since i got XM RADIO.
